Past Weather of Provinces (20th – 26th October 2025)

Punjab

Dry weather was reported from the province over the past week. Weekly mean maximum and minimum temperatures recorded as 32.5°C & 17.2°C respectively. For the recent week, on average, 139.0 growing degree days were accumulated. Average relative humidity recorded as 58% and wind speed in the morning/evening recorded as 0.7/1.3 Knots. However, the maximum rainfall was reported as 0.01 mm (Trace) from Shortkot and the highest maximum temperature was recorded as 36.7°C at Rahimyar Khan.

Balochistan

Dry weather prevailed over the province during the previous week. Weekly mean maximum and minimum temperatures recorded as 32.2°C & 15.8°C respectively. For the recent week, on average, 132.9 growing degree days were accumulated. The average relative humidity recorded was 37% and mean wind speed in the morning/evening was recorded as 0.9/3.7 Knots. The highest maximum temperature was recorded as 39.5°C at Turbat.

Khyber Pakhtunkhwa

Dry weather reported from the most parts of the province while light rainfall reported from an isolated location during the previous week. Weekly mean maximum and minimum temperatures recorded as 27.7°C & 12.2°C respectively. For the recent week, on average, 104.8 growing degree days were accumulated. Average relative humidity recorded as 61% and mean wind speed in the morning/evening recorded as 0.5/0.7 Knots. The maximum amount of rainfall was reported as 1.00 mm from Parachinar and the highest maximum temperature was recorded as 34.5°C at D. I. Khan.

Sindh

Dry weather prevailed over the province during the previous week. Weekly mean maximum and minimum temperatures recorded as 35.8° C & 20.1° C respectively. For the recent week, on

average, 160.6 growing degree days were accumulated. Average relative humidity recorded as 60%, and mean wind speed in the morning/evening recorded as 1.6/2.6 Knots. The highest maximum temperature was recorded as 39.5°C at Mithi.

Gilgit-Baltistan and Azad Jammu & Kashmir

Dry weather was observed over Gilgit Baltistan and Azad Jammu & Kashmir during the previous week. Weekly mean maximum and minimum temperatures recorded as 25.0°C & 9.0°C respectively. For the recent week, on average, 84.2 growing degree days were accumulated. Average relative humidity was recorded as 61%, and mean wind speed recorded in the morning/evening as 0.0/0.8 Knots. The highest maximum temperature was recorded as 31.1 °C at Kotli.

<u>Past Weather for Major Agricultural Plains</u> (13th – 19th October 2025)

Rawalpindi (Potohar region)

Dry weather was reported from Rawalpindi during the week; however, clear sky was observed in the morning/evening while average relative humidity was observed as 64%. The mean daytime temperature was recorded as 27.7°C & for the recent week, 119.8 growing degree days were accumulated. Mean wind speed recorded in the morning/evening as 0.0/0.2 Knots. The highest maximum temperature was recorded as 32.0°C.

Faisalabad (Central Punjab)

Dry weather was reported from Rawalpindi during the week, however, cloudiness in the morning/evening was recorded as 0.3/0.3 Oktas during the week, while average relative humidity was observed as 69%. Mean day time temperature recorded as 33.4°C & for the recent week, 142.2 growing degree days were accumulated. Mean wind speed recorded in the morning/evening as 0.3/0.6 Knots. The highest maximum temperature was recorded as 34.2°C.

Tandojam (Lower Sindh)

Dry weather was reported Tandojam during the week and clear sky was observed in

morning/evening while average relative humidity observed as 71%. Mean day time temperature recorded as 35.6°C & for the recent week, 157.0 growing degree days were accumulated. Mean wind speed recorded in the morning/evening as 0.9/0.6 Knots. The highest maximum temperature was recorded as 38.0°C.

Usta Muhammad (Eastern Baluchistan)

Dry weather was reported from Usta Muhammad during the week, and clear sky observed in morning/evening while average relative humidity was observed as 59%. Mean daytime temperature recorded as 34.1°C & for the recent week, 151.0 growing degree days were accumulated. Mean wind speed recorded in the morning/evening as 0.8/2.5 Knots. The highest maximum temperature was recorded as 35.0°C.

Quetta (Northern Baluchistan)

Dry weather was reported from Quetta during the week, however, cloudiness in the morning/evening was recorded as 0.0/0.1 Oktas during the week, while average relative humidity was observed as 22%. Mean daytime temperature recorded as 25.2°C & for the recent week, 82.3 growing degree days were accumulated. Mean wind speed recorded in the morning/evening as 2.0/2.6 Knots. The highest maximum temperature was recorded as 26.0°C.

<u>Past Weather for Sub-Regional Agricultural</u> <u>Plains (20th – 26th October 2025)</u>

Multan

Dry weather was reported from Multan during the week; however, cloudiness in the morning/evening recorded as 0.3/0.0 Oktas, while average relative humidity observed as 59%. Mean daytime temperature recorded as 33.0° C & for the recent week, 149.9 growing degree days were accumulated. Mean wind speed recorded in the morning/evening as 0.0/1.7 Knots.

Lahore

Dry weather was reported from Lahore during the week; however, cloudiness in the morning/evening

was recorded as 0.0/0.9 Oktas, while average relative humidity was observed as 57%. Mean daytime temperature recorded as 32.3°C & for the recent week, 141.4 growing degree days were accumulated. Mean wind speed recorded in the morning/evening as 0.0/0.6 Knots.

Zhob

Dry weather was reported from Zhob during the week; however, cloudiness in the morning/evening was recorded as 0.0/1.1 Oktas during the week, while average relative humidity was observed as 36%. Mean daytime temperature was recorded as 28.2°C & for the recent week, 110.5 degrees were accumulated. Mean wind speed recorded in the morning/evening as 0.3/2.0 Knots.

Murree

Dry weather was reported from Murree during the week; however, cloudiness in the morning/evening recorded as 0.3/0.6 Oktas while average relative humidity observed as 57%. Mean daytime temperature recorded as 20.6°C & for the recent week, 67.1 growing degree days were accumulated. Mean wind speed recorded in the morning/evening as 2.0/1.7 Knots.

D.I. Khan

Dry weather was reported from D.I Khan during the week and clear sky was observed in the morning/evening while average relative humidity observed as 68%. Mean day time temperature recorded as 33.6°C & for the recent week, 147.5 growing degree days were accumulated. Mean wind speed recorded in the morning/evening as 0.9/0.9 Knots.

Peshawar

Dry weather was reported from Peshawar during the week; however, cloudiness in the morning/evening recorded as 0.3/1.1 Oktas while average relative humidity observed as 69%. The mean day time temperature was recorded as 31.2°C & for the recent week, 126.3 growing degree days were accumulated. Mean wind speed recorded in the morning/evening as 0.6/0.3 Knots.

Kalam

Dry weather was reported from Kalam during the week; however, cloudiness in the morning/evening was recorded as 0.3/3.3 Oktas while average relative humidity was observed as 54%. The mean day time temperature recorded as 20.6°C & for the recent week, 55.6 growing degree days were accumulated. Mean wind speed recorded in the morning/evening as 0.0/1.3 Knots.

Gilgit

Dry weather was reported from Gilgit during the week; cloudiness in the morning/evening recorded as 1.3/4.0 Oktas while average relative humidity was observed as 62%. Mean daytime temperature recorded as 25.6°C & for the recent week, 72.5 growing degree days were accumulated. Mean wind speed recorded in the morning/evening as 0.0/2.0 Knots.

Skardu

Dry weather was reported from Skardu during the week; however, cloudiness in the morning/evening recorded as 1.6/3.3 Oktas while average relative humidity observed as 54%. The mean daytime temperature recorded as 19.5°C & for the recent week, 41.1 growing degrees days were accumulated. Mean wind speed recorded in the morning/evening as 0.0/1.3 Knots.

<u>Crop Situation for Major Agricultural Plains</u> (Based on data from Regional Agromet Centers)

Pothohar Region (Rawalpindi)

There is presently no crop grown in the fields of RAMC Rawalpindi.

Central Punjab (Faisalabad)

Cotton crop is sown in the fields of RAMC Faisalabad. Date of sowing: 03-05-2025. Phonological Stage: First picking has been completed. Condition: *Very good*.

Lower Sindh (Tandojam)

Land is being prepared for the new crop.

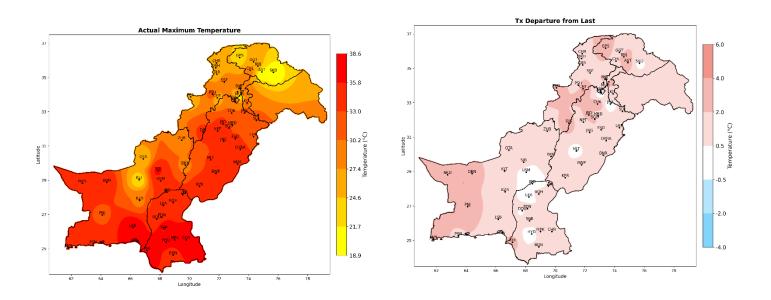

Northern Baluchistan (Quetta)

There are presently no crops grown in the fields of RAMC Quetta.

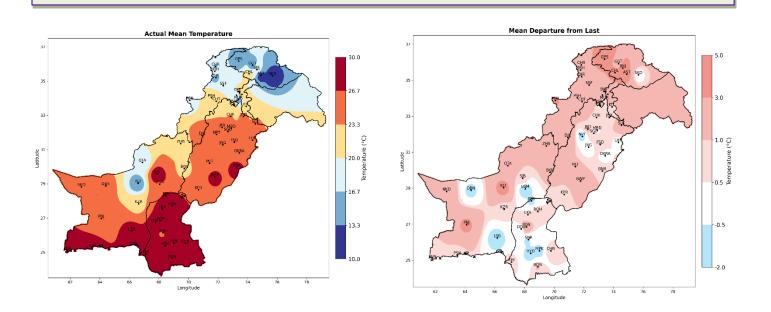

Eastern Baluchistan (Usta Muhammad)

Rice crop is sown in the fields of RAMC Usta Muhammad. Phonological Stage: Milk Maturity. Condition: *Very good*.
